THE PREFACE.

IN the Year 1741, there was Printed and Published by P. T. in Charles-Town in South-Carolina, for the Authors P. T-r, M. D. H. A-n, M. A. D. D-s, and Others, Land-holders in Georgia, (at that Time in Charles-Town) a Pamphlet entituled, A True and Historical Narrative of the Colony of Georgia in America, &c. Dedicated to his Excellency. James Oglethorpe, Esq; General and Commander-in-Chief of his Majesty's Forces in South-Carolina and Georgia, &c. The Dedication seems a very just Introduction to such a Narrative, and both the one and the other, the real Offspring of such factious and turbulent Authors; being a mean low-witted Sneer, a malicious ill-natured Invective, against that honorable Gentleman, wherein the Authors, without any regard to Good Manners or Common Civility, treat his Excellency (as it were to his Face) with such Rudeness as ill becomes any Person to use even to an Inferior: However, Icannot say but a very fit Prelude to such an inconsistent, spiteful, false Narrative, as is suljoined to the Dedication; a Narrative founded in Lies and Misrepresentations, projected and published by a few Persons of no Estate, and as little Character, Persons sour'd in their Tempers, because not humour'd in their endeavours of subverting, or at least altering, the Constitution of a new settled Colony, even in it's Infancy, and before any great Experiment was made of Advancing and improving it; Persons, who were under a necessity of Banishing themselves from a Colony, where, for their seditions and rebellious Practices, and turbulent restless Spirits, they were every day in danger of being call'd to Account, as stirrers up of Discontent, and as Incendiaries against the Peace of the Government; Persons who had shared deeply in his Excellency's Favours, and therefore guilty of the most monstrous Sin in nature, viz. Ingratitude; for Si ingratum dixeris, Omnia. short, they are Persons to whom do most justly belong the Churacter given by the Right Honourable Sir William Young, in a Debate concerning the Printer of a seditious Paper, "that · they are Mcn whose daily Employment has been, for some time, to misrepresent the Publick Measures, to disperse Scan-'dal, and excite Rebellion; who have industriously propa-"gated every Murmur of Discontent, and preserved every "Whisper of Malevolence from perishing in the Birth."— Gent. Mag. Supplement to 1741, p. 682. B.

These are the mighty Authors and Publishers of the Scurrilious Narrative! the Design of which seems to be pointed

chiefly towards obstructing the Peopling, and further Settling. the Colony of Georgia, and sullying the Character and Administration of a Gentleman, who may (without Flattery or Falshood) be justly termed the Romulus, Father, and Founder of Georgia; a Gentleman who, without any Views but that of enlarging his Majesty's Dominions, propagating the Protestant Religion, promoting the Trade of his Country, and providing for the Wants and Necessities of indigent Christians, has voluntarily banished himself from the Pleasures of a Court and exposed himself to the repeated Dangers of the vast Atlantic Ocean, in several perillous and tedious Voyages; instead of allowing himself the Satisfaction, which a plentiful Fortune, powerful Friends, and great Merit, entitle him to in England, he has inured himself to the greatest Hardships, that any the meanest Inhabitant of this new Colony could be exposed to; his Diet has been mouldy Bread, or boiled Rice instead of Bread, Salt Boef, Pork, &c. his Drink has been Water, his Bed the damp Earth, without any other Covering than the Canopy of Heaven to shelter him; and all this to set an Example to this new Colony, how then might bear with such Hardships in their new Settlements.

His Conduct in War, falls nothing short of his Prudence in private Life, and Policy in Publick Stations, however the same might have been misrepresented to the World, with respect to the Miscarriage before St. Augustine, the true Causes of which are justly to be laid at the Door of Two Sorts of Men, concerned in that Expedition; first those under a Command different from the General, upon whose Assistance the Success of that Expedition chifly depended, but who entirely left him when their Asssitance was most wanted. The Second Sort were those Out-Guards, who were to give the Alarm to the Main-Guard, when the Spaniards advanced; but, who, instead of firing their Pieces, and giving the Alarm, flung down their Arms and ran away; by which Means, the Slaughter of the Men at Musa happened: And yet, Ill-Nature will lay the Blame of all to his Excellency, when indeed the Miscarriage was occasioned by either Neglect of, or Disobedience to, the Military Orders that his Excellency had given; or by not being supported by those under a different Command, on whom he chiffy depended for Success of that Attack; but (to his Excellency's great Surprize) instead of sending their Boats and Men ashore, according to a Result of a Council of War, held on board one of his Majesty's Ships, to assist in order to destroy the Six Gallies, wherein the Spaniards greatest Safe-guard lay, and which continually fired from under the Walls over the River, on the Land Forces, hoisted their Sails and went away, without giving the least Notice of their Departure, by which Means the Garrison was relieved with Provisions through the Metanges, a small Inlet about Four Leagues to the Southward of the Bar, which might have been prevented, had those of a different Command done their Duty. Thus I leave any impartial Man, to judge the Consequence of their Departure at so critical a Juncture, and the fatal Event it produced to his Majesty's Land Forces. However, his Excellency's Conduct has been approved of at Home, and will soon appear in such a Light, that his Enemies will be ashamed of their impudent Lies, and perhaps pay for their own Folly; and how far the Ill-Nature, and impotent Malice, of the Authors of the Narrative, have carried them beyond the Bounds of Truth or good Manners, will appear in the following Sheets, which give a true and authentic Account of the Progress of that Colony, from it's first Establishment, to the Year 1741, which being published by the Order of the Honourable the Trustees, and printed in London, Anno 1741, is now R_{ℓ} -printed here, with no other View, than to obviate the Prejudices which may be raised in the Minds of People, by that Scandalous Narrative, and so may be a Means of delivering that New Settlement, from the ill Effect of such Misrepresentations as are handed about by that Libel, to deter his Majesty's Subjects from settling in that Frontier Colony, so necessary for advancing and protecting the Trade of this, and our Mother Country, on the Southermost Part of North America, and extending our Colonies both on the Gulf of Florida, and the Bay of Mexico.

Instruct, Exercise, and Govern, a Militia for the special Defence and Safety of the said Colony, to Assemble in Martial Array, and put in Warlike Posture, the Inhabitants of the said Colony, and in Time of actual War, Invasion or Rebellion, to use and exercise the Law Martial, and also to erect Forts and Fortify any Place or Places within the said Colony, and the same to furnish with all necessary Ammunition, Provision and Stores of War for Offence and Defence, and from time to time to commit the Custody and Government of them to such Person or Persons as to them should seem meet, Declaring that the Governour or Commander in Chief of South Carolina should have the Chief Command of the Militia of Georgia, and that they should observe his Orders; And Granted that the said Corporation should have Power to Import or Export their Goods, at or from any Port or Ports that should be appointed by his Majesty within the said Province for that purpose, without being obliged to touch at any other Port in Carolina: And Declared, that after the End of the said twenty one Years, such Form of Government, and method of making Laws, Statutes, and Ordinances for the Government of the said Province, and it's Inhabitants, should be Observed and Established within the same, as his Majesty, his Heirs and Successors should Ordain and Appoint, and should be agreable to Law; and that after the End of the said twenty one Years, the Governour, and all Officers Civil and Military, within the said Province. should be Appointed by his Majesty, his heirs and Successors. In Pursuance of his Majesty's Charter, and in order to fulfil the good Intents and Purposes therein expressed, it was thought necessary for the Trustees to send over such poor People and foreign Protestants as were willing to Live in *Georgia*, not only to cultivate the Lands, but at the same Time to strengthen his Majesty's Colonies. For which purpose they considered each Inhabitant both as a Planter and a Soldier; and they were therefore to be Provided with Arms for their Defence, as well as Tools for their Cultivation, and to be Taught the Exercise of both, and Towns were to be laid out for their Settlements, and Lands allotted to each of them for their Maintenance as near to those Towns as conveniently could be, that they might never have Occasion to be too far distant from their Towns, which were to be regarded as their Garrisons.

And as the Military Strength of the Province was particulaly to be taken care of, it seemed necessary to Establish such Tenures of Lands as might most effectually preserve the Number of Planters, or Soldiers, equal to the Number of Lots of Lands, and therefore each Lot of Land was to be considered as a Military Fief, and to contain so much in Quantity as would Support such Planter and his Family; and Fifty Acres were judged sufficient and not too much for that Purpose, and Provision was made to prevent an Accumulation of several Lots into one Hand, lest the Garrison should be lessened, and likewise to prevent a Division of those Lots into smaller Parcels, lest that which was no more than Sufficient for one Planter, when entire, should if divided amongst several, be too scanty for their Subsistence.

And in the Infancy of the Colony, the Lands were Granted in Tail Male, preferable to any other Tenure, as the most likely to answer these Purposes; for if the Grants were to be made in Tail General, it was thought that the Strength of each Township would soon be diminished, in as much as every Female Heir in Tail, who was unmarried, would have been intitled to one Lot, and consequently have taken from the Garrison the Portion of one Soldier; and by Intermarriages several Lots might have been united into one; and if such Tenant in Tail General had had several Daughters, his Lot must have been Divided equally amongst them all as Co-partners.

Nor were these the only inconveniencies which were thought likely to arise from Estates in Tail General: For Women being equally incapable to Act as Soldiers or serve on Juries, these Duties, and many others, such as Watchings and Wardings, &c. would return so much oftener to each Man, in proportion as the

Number of the Men in the Township was lessened, and by that means become very burthensome to the Remaining Male Lot

holders, and in case of any Attack from the *Indians*, *French* on *Spaniards*, the Township would be less able to make a Defence.

And as it was not thought proper to Grant Estates in Tail General, it appeared to be more inconvenient to Grant them in Fee Simple; which Estate would have been attended with all the Objections before mentioned incident to Estates in Tail General, and to several other besides; for the Right of Alienation being inseparable from an Estate in Fee, the Grantee might have Sold, Mortgaged, or Aliened his Lands to whomever he thought fit, which was a Power not to be intrusted with the People sent over, for the following Reasons:

1. From Considering their Condition.

2. From Considering the Purposes they were sent for.

3. From Considering the Persons to whom Lands might be Alienated. And,

4. From Considering that it might Occasion a Monopoly of Land contrary to the Intent of the Charter.

As to the First, The Persons sent over were poor indigent People, who had for the most part so indiscreetly managed what they had been Masters of here, that it did not seem safe to trust so absolute a Property in their Hands, at least in the Infancy of the Colony, and before they had by a careful and industrious Behaviour given some Reason to believe they would prove better Managers for the future.

As to the Second, They were sent over to inhabit, cultivate, and secure, by a personal Residence, the Lands Granted to them within the Province, and they voluntarily engaged so to do; And in expectation that they would perform those Engagements, they were Maintained at the Expence of the Publick during their Voyage, and their Passage was paid for them, and they were provided with Tools, Arms, Seeds, and other Necessaries, and Supported from the Publick Store, many of them at least for four Years together from their first Landing, in which respect the Publick may be said to have Purchased those People for a valuable Consideration, their Personal Residence, and all the Industry and Labour they could bestow in the Cultivation of this Province, and to have given them even Pay for the Hazard they might run in the Defence of it.

As to the Third, It was thought unsafe to Grant them such an Estate as might be the Means of introducing such sort of People as might Defeat what the Trustees had always at Heart, viz. The Preservation of the Protestant Religion in that Province, which was necessary to be taken Care of, both on a Political and Religious Account, the French lying to the West and the Spaniards, to the South of the Province of Georgia.

As to the Fourth, A Monopoly of several Lots into one Hand

would necessarily have been the consequence of a Free Liberty of Buying and Selling Lands within the Province, which would have been directly contrary to the Intent of the Charter, whereby the Grant of Lands to any one Person is limited not to exceed five hundred Acres.

A further inconvenience seemed likely to arise in every Case where the Tenant in Fee died without any Chidren, or without having disposed of his Lot by Will; for the Heir General who might have the Right to it might not happen to be found out for many Years after, especially if it was one of the Foreign Protestants, and all that Time the House would have run to decay, and the Land remain uncultivated and become a harbour for Vermin, to the great appropriate and damage of the Neighbouring Lots.

But though the before-mentioned restraints were intended for the good of the whole, yet whenever particular Cases required it they were taken off and dispensed with: And upon any application for leave to alienate Lands, Licences were always granted for that purpose; and when the succession of Females became less dangerous to the Province, by the growing strength and increase of the People, and by the Security provided for it by his Majesty's Forces there, the Trustees resolved to enlarge the Tenures of the Lands to Estates in Tail General.

The Tenures being thus settled, it was thought necessary to require the Inhabitants to cultivate their Lands within a limited Time, and in order to raise Raw silk, which was intended to be one of the Produces there, a certain proportion of white Mulberry-Trees were to be Planted, and in their respective Grants Ten Years were allowed for the Cultivation, and one hundred white Mulbery-Trees were to be planted on every ten Acres of Land when Cleared; with a Power for the Trustees to re-enter on the Parts that should remain uncultivated.

But as the People were not able to Cultivate their Lands within the Time required by their Grants, by reason of the Alarms from the Spaniards, the Droughts in that part of America, and other unforeseen Accidents, the Trustees resolved to release all forfeitures on that Account, and to require the Cultivation of no more than five Acres of the said fifty Acres within the Remainder of the said Term of Ten Years.

And as other Persons applied to the Trustees for Grants of Land, in order to go over and Settle there at their own Expence, particular Grants were made under the same Tenure and on the following Conditions viz. That they should within twelve Months from the Date of their Grants, go to and arrive in Georgia, with one Man Servant for every fifty Acres Granted them, and should with such Servants abide, settle, inhabit and continue there for three Years. That they should within ten

Years Clear and Cultivate one fifth part of the Land granted them, and within the next ten Years Clear and Cultivate three fifth parts more of the said Lands, and plant one thousand white Mulberry-Trees upon every one hundred Acres thereof when Cleared. And that they should not at any time hire, keep, lodge, board or employ any Negroes within Georgia on any Account whatsoever without special Leave. Which Conditions were readily approved of, and Counterparts executed by them all; and to those who desired to name their Successor on failure of Issue Male, special Covenants were entered into by the Trustees for that Purpose, agreable to their own Propositions. And for an encouragement for their Men Servants to behave well, like Covenants were entered into, to Grant to every such Man Servant, when requested thereunto by any Writing under the Hand and Seal of the Master, Twenty Acres of Land under the same Tenure.

The Trustees were induced to prohibit the use of Negroes within Georgia, the Intention of his Majesty's Charter being to provide for poor People incapable of subsisting themselves at Home, and to settle a Frontier to South Carolina, which was much exposed by the small number of it's White Inhabitants. It was imposible that the Poor who should be sent from hence, and the Foreign Prosecuted Protestants, who must go in a manner Naked into the Colony, could be able to purchase or subsist them if they had them, and it would be a Charge too great for the Trustees to undertake; and they would be thereby disabled from sending White People. The first Cost of a Negro is about Thirty Pounds, and this Thirty Pounds would pay the Passage over, provide Tools and other Necessaries, and defray the Charge of subsistence of a White Man for a Year, in which time it might be hoped that the Planter's own Labour would grant him some subsistence, Consequently the Purchase Money of every Negro (abstracting the Expence of subsisting him as well as his Master) by being applied that way, would prevent the sending over a White Man who would be a Security to the Province, whereas the Negro would render that Security Precarious.

It was thought the White Man, by having a Negro Slave, would be less disposed to Labour himself; and that his whole Time must be employed in keeping the Negro to Work, and in watching against any Danger he or his Family might apprehend from the Slave, and that the Planter's Wife and Children would by the Death or even the Absence of the Planter, be at the Mercy of the

Negro.

It was also apprehended, that the *Spaniards* at *St. Augustine* would be continually enticing away the Negroes, or encouraging them to Insurrections. That the first might easily be accomplish-

ed since a single Negro would run away thither without Companions, and would only have a River or two to swim over, and this Opinion has been confirmed and justified by the practices of the Spaniards even in Times of profound Peace amongst the Negroes in South Carolina, where though at a greater Distance from St. Augustine, some have fled in Periaguas and little Boats to the Spaniards, and been Protected, and others in large Bodies have been incited to Insurrections, to the great Terror and even endangering the Loss of that Province, which though it has been established above seventy Years, has scarce White People enough to secure her own Slaves.

It was also considered that the Produces designed to be raised in the Colony, would not require such Labour as to make Negroes necessary for Carrying them on; for the Province of Carolina produces chiefly Rice, which is a Work of Hardship proper for Negroes, whereas the Silk and other Produces which the Trustees proposed to have the People employed on in Georgia, were such as Women and Children might be of as much use in as Negroes.

It was likewise apprehended, that if the Persons who should go over to Georgia at their own Expence, should be permitted the use of Negroes, it would dispirit and ruin the Poor Planters who could not get them, and who by their Numbers were designed to be the strength of the Province; it would make them Clamorous to have Negroes given them, and on the Refusal would drive them from the Province, or at least make them negligent of their Plantations, where they would be unwilling, nay would certainly disdain, to work like Negroes; and would rather let themselves out to wealthy Planters as Overseers of their Negroes.

It was further thought, that upon the Admission of Negroes, the wealthy Planters would, as in all other Colonies, be more induced to absent themselves and live in other Places, leaving the Care of their Plantations and Negroes to Overseers.

It was likewise thought, that the Poor Planter sent on Charity, from his desire to have Negroes, as well as the Planter who should settle at his own Expence, would (if he had leave to alienate) Mortgage his Land to the Negro Merchant for them, or at least become a Debtor for the Purchase of such Negroes; and under these Weights and Discouragements would be induced to sell his Slaves again upon any necessity, and would leave the Province and his Lot to the Negro Merchant: In Consequence of which all the small Properties would be swallowed up, as they have been in other Places, by the more wealthy Planters.

In was likewise Considered, that the admitting of Negroes in *Georgia* would naturally facilitate the Desertion of the *Corolina* Negroes through the Province of *Georgia*, and Consequently this Colony instead of proving a Frontier and adding strength to the

Province of South Carolina, would be a Means of drawing off the Slaves of Carolina, and adding thereby a strength to Augustine.

From these several Considerations, as the Produces to be raised in the Colony did not make Negro Slaves necessary, as the Introduction of them so near to a Garrison of the Spaniards would weaken rather than strengthen the Barrier, and as they would introduce with them a greater Propensity to Idleness among the Poor Planters, and too great an Inequality among the People, it was thought proper to make the Prohibition of them a Fundamental of the Constitution.

When the Trustees had made these Dispositions, and were enabled by Benefactions from several private Persons, on the 3d of October 1732, It was resolved, to send over One hundred and fourteen Persons, Men, Women and Children, being such as were in decayed Circumstances, and thereby disabled from following any Business in England, and who if in Debt had leave from their Creditors to go, and such as were recommended by the Minister, Church-Wardens and Overseers of their respective Parishes. And James Oglethorpe, Esq. one of the Trustees, went with them at his own Expence, to settle them.

On the 24th of the same Month the People were all Examined whether any of them had any Objections to the Terms and Conditions proposed to them, which they all declared they had not, but that they were fully satisfied with them, and executed Articles under their Hands and Seals, Testifying their Consents thereto, which are now in the Publick Office belonging to the Trustees.

But four of them desiring that their Daughters might inherit as well as Sons, and that the Widows Dower might be considered, the Trustees immediately Resolved, that every Person who should desire the same, should have the Privilege of naming a Successor to the Lands granted to them, who in Case the Possessor should die without Issue Male, should hold the same to them and their Heirs Male for ever; and that the Widows should have their Thirds as in *England*, with which Resolutions the People being all acquainted, were very well satisfied.

The Trustees prepared Forms of Government, agreable to the Powers given them by their Charter; they Established under their Seal a Court of Judicature for Trying Causes as well Criminal as Civil in the Town of Savannah, (the Name which was given to the first Town to be raised) by the Name and Stile of The Town Court; They also appointed Magistrates there, viz. Three Bailiffs and a Recorder; and inferior Officers, viz. Two Constables and two Tything Men: They Chose for Magistrates such as appeared to them the most Prudent and Discreet, but amongst a Number of People who were all upon a Level at their

tirst setting out, it was impossible to make any Choice or Distinction which would not create some future uneasinesses among them.

On the 16th of November, 1732, when the One Hundred and Fourteen Persons, and with them the Reverend Mr. Herbert a Clergyman of the Church of Engiand, and a Man from Piedmont (engaged by the Trustees to instruct the People in the Art of Winding Silk) Embarkt on board the Ship Anne, Capt. Thomas; several of the Trustees went to Gravesend, called over the People, and made a strict Enquiry into their Accommodations and Provisions, and left the People very well satisfied. Soon after Fifteen more Persons were sent, Eleven of whom were Sawyers, in order to Assist the People in Building their Houses.

At the time of the Embarkation five thousand Acres of Land were Granted to Three of the Colonists, in trust for them or the survivors of them, to make Grants from time to time to every Man of twenty one Years of Age or upwards, (who should arrive in Georgia, and desire the same) fifty Acres of Land to hold to

him and his Heirs Male.

The Common Council of the Trustees (in whom by the Charter the disposal of Money was lodged) did resolve at their first meeting, that the Bank of *England* should be desired to keep the Money belonging to the Trust, which the Bank accepted, and have continued so to do, paying no Sums but by Draughts signed by five of the Common Council.

The Trustees desired by a Letter, Sir Thomas Lombe's sentiments of the Goodness of the Raw Silk produced in Carolina, and the proper methods of carrying on that Undertaking with Success. on which they received * from Sir Thomas Lombe great Encouragement to proceed in it, by his Approbation of the Silk produced

in that Climate, of which he had made Experiments.

On the 28th February 1732, the Trustees received a Letter from Mr. Oglethorpe, dated the 13th January, 1732, on Board the Ship Anne, of Charles-Town in South Carolina, giving an Account of his safe Arrival there with the People, with the Loss only of two Children.

On the 18th of July, 1733, they received another Letter from him, which is here inserted at length, as it gives an Account of the

situation were he Planted the People.

From the Camp near Savannah, the 10th February, 1732, 3. Gentlemen,

I Gave you an Account in my last, of our Arrival at Charles— Town; The Governor and Assembly have given us all possible Ensouragement. Our People arrived at Beaufort on the 20th of

^{*} Appendix, No 1.

January, where I lodged them in some new Barracks built for the Soldiers, whilst I went myself to view the Savannah-River. fixed upon a Healthy Situation about ten Miles from the Sea: the River here forms an half Moon, along the south side of which the Banks are about forty feet high, and on the Top a Flut, which they call a Bluff; the plain High Ground extends into the Country about five or six Miles, and along the River side about a Mile. Ships that draw twelve feet Water can ride within ten Yards of the Bank. Upon the River side in the Centre of this Plain, I have laid out the Town, opposite, to which is an Island of very Rich Pasturage, which I think should be kept for the Trustees Cattle; the River is pretty Wide, the Water fresh, and from the Key of the Town you see it's whole Course to the Sea, with the Island of Tybee, which forms the Mouth of the River, for about six Miles up into the Country. The Landskip is very agreable, the stream being Wide and bordered with high Woods on both sides. The whole People arrived here on the 1st of February; at Night their Tents were got up. Till the 10th we were taken up in unloading, and making a Crane, which I then could not get finished, so took off the Hands and set some to the Fortification and began to fell the Woods. I have markt out the Town and Common, half of the former is already cleared, and the first House was begun Yesterday in the afternoon. A little Indian Nation, the only one within fifty Miles, is not only in Amity, but desirous to be Subjects to his Majesty King George, to have Lands given them among us, and to breed their Children at our Schools; their Chief, and his beloved Man, who is the Second Man in the Nation, desire to be instructed in the Christian Religion.

I am, Gentlemen, &c.

In this Month of *April*, the Trustees in another Embarkation of seventeen Persons, sent some *Italians* whom they had procured from *Piedmont*, in order to promote the Silk Business.

They received another Letter from Mr. Oglethorpe, dated the 20th February, 1732. of which the following Extract gives a

further Account of the People and their Situation.

"OUR People are all in perfect Health; I chose the Situation
"for the Town upon an high Ground, forty Feet perpendicular above High Water Mark; the Soil dry and sandy,
the Water of the River fresh, Springs coming out from the
sides of the Hill. I pitched upon this Place not only for the
Pleasantness of the Situation, but because from the abovementioned and other signs, I thought it Healthy; for it is
sheltred from the Western and Southern Winds (the worst in
this Country) by vast Woods of Pine-Trees, many of which
are an Hundred and few under Seventy Feet high. There

is no Morse on the Trees, tho' in most parts of Carolina they are covered with it, and it hangs down two or three feet from them. The last and fullest conviction of the Healthfulness of the Place, was, that an Indian Nation who knew the Nature

" of this Country chose it for their Situation."

The Trustees endeavoured very early to secure the Friendship of the *Indians*, who by Ranging thro' the Woods, would be capable of giving constant Intelligence to prevent any Surprize upon the People, and would be a good out Guard for the inland Parts of the Province. For this Purpose they were treated with all possible Candour and Gentleness: They were acquainted, that the *English* had no Intention to Hurt or Distress them, but would be ready to Assist and Protect them on all Occasions. They received several Presents from the Trustees, and were promised, that if any of the People of Georgia injured them, they should upon their Complaints and proof of it find a ready Redress. For which, in return, the *Indians* engaged never to take any Revenge themselves, as it might breed ill Blood between And as they have since found, that the *English* and them. Justice has been always done to them upon proper Complaints, they have been true to their Engagements.

The *Indians* made a formal and voluntary Cession of that part of the Country to Mr. *Oglethorpe* for the King of *Great-Britain* by which a further Right and Title to it was acquired and added to that of the first Discovery and Cultivation; and a Treaty of Friendship and Commerce with them was settled, which was soon

after sent over to the Trustees for their Ratification.

In the Month of May 1733, the Trustees sent over six Persons more.

The Number of People sent on the Charity from the beginning to the 9th June 1733, (on which day of the Month the Trustees Accompt is Yearly made up, which is directed to be delivered to the Lord Chancellor and the other Persons named in the Charter) amounted to One hundred and fifty two, of whom One hundred and forty one were Britons, and Eleven were foreign Protestants, and sixty one were Men.

The Lands granted in Trust this Year in order to be granted out in smaller Portions in Georgia, were the aforesaid five thou-

sand Acres.

The Lands granted within this Year to Persons going at their own Expence, were four thousand four hundred and sixty Acres.

The Money received from Private Persons this Year amounted to 3723l. 13s.7d. whereof the Trustees applied 2254l. 17s. 9d. of which they exhibited an Account to the Lord Chancellor and the Lord Chief Justice of the Common Pleas, pursuant to their Charter, and carried the Remainder into their succeeding Accompt.

From the 9th June 1733, to the 9th June 1734.

B Esides the several Works on which the People were employed at Savannah, as Pallisading the Town, Clearing the Place from Pine Trees, &c. and Building of Houses, some other Works were carried on, viz. a Publick Garden was laid out, which was designed as a Nursery, in order to supply the People for their several Plantations with white Mulberry Trees, Vines, Oranges, Olives, and other necessary Plants. A Gardiner was appointed for the Care of it and to be Paid by the Trustees. A Crane was made for Landing of Goods upon the Bluff; a Battery raised which Commands the River some distance below the Town, and on the Island of Tybee at the Entrance of the River a Beacon was Erected Ninety Feet high, which has been of great Service not only to the Ships entering the River Savannah, but to those likewise which Sail by the Coast, there being none like it all along the Coast of America.

A Fort was likewise Built at the narrow passages of an inland River (called Ogecchee) in order to Protect the Settlement from any inland Invasion from Augustine. Two little Villages were laid out and settled at about Four Miles distant from Savannah, inland from the River, and a Mile from each other, which were called Himpstead and Highgate.

In the Carolina Gazette * dated the 22d March 1732, a further Account was given of the Settlement at Savannah, which was Written by a Gentleman of Charles-Town, who with some

others went thither out of Curiosity.

The Parliament having Granted out of Money arisen from the Sale of the Lands at St. Christopher, Ten Thousand Pounds for the further Settling and Securing the Colony, the Trustees resolved to lose no Time in Strengthening it with People, and accordingly in the Months of September and October 1733, they sent over two Embarkations of Persons, whose Numbers are entered at the End of this Years Proceedings, and of whom many were Persecuted Protestants from Saltzburgh.

As very pleasing Accounts of the Country and Settlement were sent from several of the People there to their Friends, the Trustees were informed that some Persons had gone about in several Parts of England offering Money and Land in their Names (but without their Knowledge or Authority) to any who should be desirous of going to Georgia: Therefore they Published an Advertisement in some of the News Papers, in order to prevent the ill Consequences of drawing Laborious People out of the Country with such Expectations, and they declared that they had never given such Power to any Persons whatso ever, and that they never used any Solicitations to induce People to go over.

From the 9th June 1734, to the 9th June 1735

N the Month of June 1734, Mr. Oglethorpe arrived from the Colony, and with him came some of the principal Indians of the Lower Creek Nation who live nearest to Savannah.

When these Indians were in England, they desired of the Trustees that the Measures, Prices and Qualities of all Goods to be Purchased by them with their Deer-skins, might be settled, as likewise the Weights; that nobody might be allowed to Trade with the Indians in Georgia without a Licence from the Trustees, in order that if they were in any respect Injured or Defrauded by the Traders, they might know were to Complain; and they further desired there might be but one Storehouse in each Indian Town for supplying them with the Goods they might want to Purchase, from whence the Trader should be obliged to supply them at the first Prices.

The Reason which the Indians gave for this Application, was, because the Traders with them had often in an Arbitrary Manner raised the Prices of Goods, and defrauded them in the Weights and Measures, and by their Impositions had often created Animosities between the English and Indians, which had frequently ended in Wars between them prejudicial to both.

The Trustees having considered of their Request, and being

mformed that the Council and Assembly of Carolina had passed an Act the 20th August 1731, entituled, An Act for the better Regulation of the Indian Trade, and for appointing a Commissioner for that purpose with Regulations, which the Trustees hoped might be effectual in Georgia, prepared an Act, entituled. An Act for Maintaining the Peace with the Indians in the Province of Georgia, with the same Regulations and provisions as were in the Carolina Act; which Act ceased to be in Force in Georgia since it was erected into a Distinct Independent Province not subject to the Laws of Carolina.

The Trustees receiving frequent Informations from the Colony of the pernicious Effects of Drinking Rum and other Spirituous Liquors, by not only creating Disorders amongst the Indians (who had been plentifully supplied with it by the Traders) but also Destroying many of the English, and throwing the People into various Distempers, prepared an Act, entituled, An Act to prevent the Importation and Use of Rum and Brandies in the Province of Georgia, or any kind of Spirits or Strong Waters What-At the same time they endeavoured to supply the Stores with Strong Beer from England, Mollasses for Brewing Beer, and with Madeira Wines, which the People might purchase at reasonable Rates, and which would be more refreshing and wholesome for them. The Magistrates of the Town of Savannah were likewise impowered to grant Licences to private Persons for Retailing Beer, Ale, &c. And the Trustees have great Reason to believe that the remarkable Healthiness of Ebenezer in the Nothern Part, and Frederica in the Southern Part of Georgia, is very much owing to the Prohibition of the Use of Rum: For in those Part where Rum in defiance of the Act has been introduced, the People have not in general been so Healthy and Vigorous.

At the same Time the Trustees taking into Consideration the many Inconveniencies which would attend the Introduction of Negroes in a Frontier, for the several Reasons before specified, prepared an Act for rendering the Colony of *Georgia* more Defensible by prohibiting the Importation and Use of Black Slaves or Negroes into the same.

These Three Acts were laid before the King in Council in the Month of January 1734, and after a Report from the Lords Commissioners for Trade and Plantations to the Committee of Council, that they were proper to receive his Majesty's Royal Approbation, they were Ratified by his Majesty in Council.

Tho' the Lands Granted by the Trustees were to Revert to them on failure of Issue Male, in order to be re-granted for keeping up a number of Men; yet the Trustees as Guardians of the People when any such Failure happened, resolved that the value

of the Improvements upon the Lands of the late Occupiers, should be Valued and Paid to or for the Benefit of the Female Issue or near Relation, and the first Issue of such a Failure being on the Death of Mr. De Farren, the Value of the Improvements he had made upon his Estate was on the 5th Febr. 1734 Ordered and Paid for the Use of his Daughter in England, who being destitute would have been absolutely unable to proceed in the Cultivation of her Father's Lot.

Two Embarkations were made this Year, whose Numbers are hereafter mentioned, which consisted chiefly of Saltzburghers, who with the Saltzburghers that went before, were settled in a Town called by them Ebenezer upon the River Savannah, at some distance above the Town, and by the Sobriety and Industry of the People they prove a very thriving Settlement.

on their own Expence, in which the Conditions were specified as well as the Necessaries for their Subsistence and Labour.

The Parliament having in the Year 1735 Granted Twenty six Thousand Pounds for the further Settling and Securing the Colony of Georgia, the Trustees thought it prudent to strengthen the Southern Part of the Province by making a Settlement on the Alatamaha River, to which they were strongly induced by a * Memorial sent to his Majesty from the Governor and Council of South-Carolina, dated the 9th April 1734, wherein after Thanking his Majesty for his peculiar Favour and Protection, and especially for his most benign Care so wisely calculated for the Preservation of South-Carolina, by his Royal Charter to the Trustees for Establishing the Colony of Georgia, and after Representing the Practices of the French to seduce the Indians in Amity with South-Carolina, the Attention of the French to the Improvement of their Settlements, and their late Enlargement of them nearer to Carolina, the Defenceless Condition of their Province, and the Danger of the Inhabitants from their own Negroes, and the Ruinous Situation of the West-India Trade in case the French should possess themselves of Carolina; they add, that the Harbours and Ports of Carolina and + Georgia enable his Majesty to be absolute Master of the Passage thro' the Gulph of Florida, and to impede at his Pleasure the Transportation Home of the Spanish Treasure, which should his Majesty's Enemies Possess would then prove so many convenient Harbours for them to annoy a great Part of the British Trade to America, as well as that which is carried on through the Gulph from Jamaica.

Upon which Inducements the Trustees resolved to make Embarkations for Strengthening the Southern Part of Georgia, and to obviate any Objections which might be made by sending over any of our useful Poor from England; and as the Trustees found that many of the Poor who had been useless in England were inclined to be useless likewise in Georgia, they determined that these Embarkations should consist chiefly of Persons from the Highlands of Scotland, and Persecuted German Protestants.

^{*} Appendix, No 5.

[†] The Harbour in the Southern Part of Georgia the nearest to the Gulph of Florida which has yet been Sounded, has been proved by Affidavis of three Captains of Ships who have been three, viz. Capt. Thomas Shubrick, Capt. George Dymond, and Capt. William Thomson. to be capable of receiving Ships of Forty Guns, and to be safely Land locked: And by the ‡ Affidavit of Thomas Pearce Mariner, who was on the Coast of Georgia near four Years, it appears, that Ships in this Harbour may in Twenty four Hours from the Bar, rue out into the Gulph Stream of Florida, thro' which Stream the Spanish Galleons (when not passing the Windward Passage) always coine.

[†] Appendix, No 6.

While these Embarkations were preparing, the Trustees made Preparations for the new Settlements: They Established the Civil Government for the new Town (which was called Frederica) in the same Manner as they had before at Savannah.

In the Month of January 1735, the Highlanders arrived in Georgia (and with them several of the same Country as Servants to private Grantees) they were settled on the Alatamaha River, about Sixteen Miles distant by Water from the Island of St. Simons (which is at the Mouth of the River) they soon raised convenient Huts' till their Houses could be Built; and the Town at their own desire was called Darien; which Name still remains to the District, but the Town is since Named by them New-Inverness.

On the 6th February 1735, the Embarkation under the Conduct of Mr. Oglethorpe, arrived in Georgia, they were settled upon St. Simon's Island, the Town called Frederica was soon laid out, and the People were set to Work in Building their Houses. The Creek Indians who went thither upon Occasion of this new Settlement, agreed that the English should possess St. Simon's Island, with the Others contiguous to it: The Land of the Island is very fertile, chiefly Oak and Hickery, intermixed with Savannahs and old Indian Fields, and according to a Survey made of it, it is about Forty five Miles in Circumference.

For a Communication between the Settlements in the Northern and Southern Parts of the Province by Land, a Road was soon afterwards opened.

From the 9th June 1736, to the 9th June 1737.

FOr the Security of the People (who were settled the last Year on St. Simon's Island) and the Southern Part of the Provinces several Forts were Built this Year, viz.

One at Frederica, with Four regular Bastions and a Spur Work towards the River, and several Pieces of Cannon were mounted on it

About Ten Miles from Frederica a large Battery is Built commanding the Entrance into the Sound, where Ten or Twelve Forty Gun Ships may safely Ride, there being sufficient Water on the Bar called Jekyll for such Ships to go over, which Bar lies in 30d. 40m. and behind Jekyll Island there is Water and Room enough for Shipping for Ten Miles up. The Battery is enclosed within a strong Wall, and has a Guard-House within the Wall capable of holding Twenty four Men.

Another Fort was Built on the Southwest Part of the Island of St. Peters (now called Cumberland) which lies in 30d. 30m. under which Fort, on which are Mounted several Pieces of Ordnance pointed towards the River, all Sloops and Boats in the Inland Passage to this Island must come. Within the Pallisade round the Fort there are fine Springs of Water, and there is a well Framed Timber Log House, Thirty Feet by Eighteen, with a Magazine under it both for Ammunition and Provisions. A Scout Boat is stationed at this Island.

As these Precautions were taken for the Southern Part of the Province, Directions were given for a Fort to be Built for the Security of the Northern Part, by way of an Out-Guard against any Invasion by Land. This was at a Place called Augusta which has proved a very thriving Town, it being now the chief Place of Trade with the Indians, and were the Traders of both Provinces of South-Carolina and Georgia resort, from the Security they find there. Augusta is about Two Hundred and Thirty Miles by Water from the Town of Savannah, and large Boats which carry about Nine Thousand Pounds Weight of Deer-skins can Navigate down the River Savannah. The Town, which stands upon a high Ground near the River, is well Inhabited, and has several Warehouses in it furnished with Goods for the Indian Trade. A Road has been likewise made, so that Horsemen can now Ride from this Town to Savannah, as likewise to the

Cherokee Indians, who are situated above the Town of Augusta and Trade with it. A Garrison has been kept at this Fort at the Trustees Expence, 'till the Arrival of the Regiment his Majesty

since Ordered for the Defence of the Colony.

Whilst these Dispositions were making for the Security of the Province, the Parliament gave Ten Thousand Pounds this Year for the further Settling and Securing the Colony; but as the Expences of the Forts and the Supplies which were sent for the Support of the Colony, were very great, and as many People in the Northern Part of the Province were as yet unable to subsist themselves, and out of Compassion to them and their Families a Store was still kept open for their subsistence, the Trustees sent over but few Persons this Year.

In the beginning of the Year 1737, the *Spaniards* at *Augustine* made Preparations for Attacking the Colony of *Georgia*; they laid in Quantities of Corn and Provisions, bought up a great number of Fire Arms, and large Bodies of Regular Troops were

sent thither from the Havannah.

The Lieutenant Governor of South-Carolina informed the Magistrates of Savannah of these Preparations; This Advice and the frequent Alarms which were otherwise given, drew the People off from their Labour in the Sowing Season, and their Improvements in their Plantations were neglected, and they were obliged to make Preparations for their Defence.

At the same Time the Highlanders at New-Inverness, who were exposed to Danger, Built a Fort there and Twelve Pieces

of Cannon were mounted on it.

Tho' the People at Savannah were not so immediately exposed to Danger, they began to Build a large Fort at their Town of Pallisade Work with Bastions: But as the Trustees perceived this took off the People from their Cultivation, that the Work would be very Chargeable and they had not Money to support the Expence, they found themselves under a Necessity to put a stop thereto.

From the 9th June 1737, to the 9th June 1738.

The Lieutenant Governor of South-Carolina having acquainted the Trustees by a Letter dated from the Council Chamber the 7th February 1736.7, that he had received Advice from Commodore Dent, of Preparations made by the Spaniards at Augustine and the Havannah, in order to make an Attack on the Colony of Georgia, and the Trustees having in a * Memorial to his Majesty set forth the Inability of the Colony to Protect themselves against such a Force as was Preparing at the Havannah and Augustine, his Majesty was graciously pleased to order a Regiment of Six Hundred Effective Men to be raised and sent to Georgia for the Defence and Protection of it.

And as an Encouragement for the Soldiers good Behaviour, the Trustees resolved to give each of them a Property in the Colony; they therefore made a Grant of land in Trust for an Allotment of Five Acres of Land to each Soldier of the Regiment to Cultivate for his own Use and Benefit, and to Hold the same during his continuance in his Majesty's Service; and for a further Encouragement, they resolved, that each Soldier, who at the end of Seven Years from the Time of his Inlisting in the Regiment, should be desirous of quitting his Majesty's Service, and should have his regular Discharge, and would settle in the Colony, should on his Commanding Officer's Certificate of his good Behaviour, be intitled to a Grant of Twenty Acres of Land.

The Lands Granted in Trust this Year in order to be Granted out in smaller Portions in *Georgia* were Three Thousand Acres.

The Lands Granted this Year to Persons going on their own

Expence were One Thousand Acres.

The Money received this Year pursuant to Act of Parliament was £20,000 and in Benefactions 909l. 19s. 10d. 2q. whereof the Trustees applied 18,870l. 13s. 3d. 2q. of which they exhibited an Account to the Lord Chancellor, and Master of the Rolls, pursuant to their Charter, and carried the Remainder into their succeeding Accompt.

From the 9th June 1738, to the 9th June 1739.

A S several Merchants and Captains of Ships had for their own Interest carried into the Colony from New-York and other Places, large Cargoes of Provisions, &c. great part of which (to save the Merchants from Losses) was taken in at the Store without a proper Authority from the Trustees and an Expence created thereby which the Trustees could nor Estimate, nor have Ability to Discharge, and for which certified Accounts were returned to them; the Trustees published an Advertisement in the London Gazette, and Ordered it to be Published in the South-Carolina Gazette, and to be affixed upon the Doors of the Storehouses at Savanuah and Frederica, That out of a due Regard to Publick Credit they had Resolved, that all Expences which they had Ordered or should Order to be Made in America for the use

of the Colony, should be Defrayed and Paid for in *Georgia*, in Sola Bills of Exchange only, under their Seal; and they gave Notice, that no Person whatsoever had any Authority from them, or in their Name, or for their Account, to purchase or receive any Cargoes of Provisions, Stores or Necessaries, without Paying for them in the said Sola Bills.

Upon the Petition of one Abraham Dc Lyon, a Freeholder of Savannah in Georgia, that he had expended a great Sum in the Cultivation of Vines, which he had carried from Portugal, and had brought to great Perfection; and several Certificates being produced of his Improvements in Cultivating them, and of the Goodness of the Grapes, and of their Thriving in the most barren Lands of the Province, the Trustees assisted him to proceed in his Improvements.

The Security of the Colony being provided for by the Regiment sent over by his Majesty, the Parliament gave Eight Thousand Pounds for the further Settling the Colony. Therefore the Trustees sent over an Estimate of all the Expences they allowed to be made in the Province, by which several Military Expences, which they had been engaged in for the Defence of the Colony, and which were very great, were reduced.

The Trustees this Year sent over the Rev. Mr. Norris to reside at Frederica, with a Salary of Fifty Pounds a Year, Ordered a House to be Built for him, and another for the Inhabitants to perform Divine Service in 'till a Church could be Built there.

The Assembly of South-Carolina having in the last Year passed an Ordinance for raising a Sum to indemnify their Traders in opposition to the Act which was approved of by his Majesty in Council for maintaining the Peace with the Indians in the Province of Georgia, upon a Memorial from the Trustees complaining of the said Ordinance, and upon a Petition of the Council and Assembly of South-Carolina against the said Act, there was a solemn Hearing before the Lords Commissioners of Trade and Plantations, and afterwards before a Committee of the Lords of his Majesty's Privy Council; Whereupon his Majesty was pleased to Order, that the said Ordinance of the Assembly of South-Carolina should be Repealed and declared Void, and was pleased to send an Instruction to the Trustees to prepare a proper Act or Ordinance for settling the Trade earried on by the Provinces of South-Carolina and Georgia with the Indians, on such a Footing as might be for the mutual Benefit and Satisfaction of both Provinces; And his Majesty at the same Time was graciously pleased to give an Instruction to Samuel Horsey, Esq; Governor and Lieutenant-General of South-Carolina, to Recommend to the Council and Assembly there to pass a Law for the like Purpose in that Province: But Samuel Horsey, Esq; dying soon after, and no

other Governor having since gone to South-Carolina, that Affair remains unsettled.

The Trustees immediately sent to Col. Oglethorpe a Copy of his Majesty's Instructions, and desired that he would Consult with Lieutenant Governor Bull in South-Carolina, that Plans of proper Acts might be prepared and sent over to the Trustees for their Consideration, in order to answer the Purposes of his Majesty's Instructions, and that in the mean Time the Commissioners of South-Carolina and the Commissioners of Georgia, might proceed in their respective Provinces in concert with each other to carry on a mutual Trade to the Indians in both Provinces.

Mr. Stephens, Secretary in Georgia, having informed the Trustees, that the Grand-Jury at Savannah claimed a Right of Administring Oaths, and making Enquiry thereon into all such Matters as they should think fit, and the Trustees having perceived that in a Representation of the said Grand-Jury they had pretended to such Right, sent a Letter to Mr. Stephens to acquaint him, That the Trustees were sensible great Mischiefs might be done by ill-designing Men who might procure themselves to be put upon the Panel, if this Claim of the Grand-Jury was allowed of, and therefore the Trustees ordered him to acquaint the People that the Grand-Jury had no such Right, and that their Claim was intirely illegal.

As the Trustees both by their Letters and Instructions to the Magistrates had constantly exhorted and encouraged the People to a Cultivation of their Lands on which they were to Depend for their Support, and as they found that many (as well of those whom they had sent over as Objects of Charity, as of others who at different Times had gone into the Colony from other Plantations for a Temporary Maintenance) still continued in their Idleness, and were a Burthen upon the Trust, they gave Orders for striking off the Store all such as having had Time to Cultivate their Lands had neglected it. This carried from the Colony many of those who had gone thither or joined it from any parts of America to gain a Subsistence for a Year or two, and of others who had not considered the Hardships of attending the first Settlement of a Country, and were tired of their Labour.

The Trustees receiving an Account dated the 12th February 1738 from their Secretary in the Province, of an Uneasiness amongst several Persons upon the Tenures of their Lots being confined to the Heirs Male, and they considering that the Colony had been for some Time Established, and the People grown more numerous, and a Regiment being stationed in it for it's Defence, whereby the former Tenures became less necessary, did on the 15 March following, at their Anniversary Meeting, resolve, That in Default of Issue Male, any legal Possessor of Land, might by

a Deed in Writing, or by his Last Will and Testament, appoint his Daughter as his Successor, or any other Male or Female Relation, with a Proviso, that the Successor should in the proper Court in *Georgia*, personally claim the Lot Granted or Devised within Eighteen Months after the Death of the Grantor or Devisor.

This was soon after extended to every legal Possessor's being impowered to appoint any other Person to be his Successor.

But whilst the Trustees were taking these steps for the Satisfaction of the People, and whilst those in the Southern Part of the Province (tho' exposed to greater Danger) were industrious and easy in their Settlements, many of those in the Northern Part, who had neglected the Cultivation of their Lands, drew up a *Representation dated the 9th Dcc. 1738, setting forth the Want of a Fee Simple to their Lands; and Negroes to cultivate them, but they were far from being seconded or supported by the People in the Southern Parts of the Province, in this Representation, who not only refused to Sign it, but † Petitioned the Trustees against the Use of Negroes, setting forth the Danger they should be in from the Spaniards who had proclaimed Freedom to all Slaves who should resort to them, and that by this means they should be exposed to an Enemy without and a more dangerous one in their Bosoms.

The Industrious Saltzburghers also at Ebenezer (who are in the Northern Part of the Province not far from Savannah). Petitioned against Negroes, and set forth their Satisfaction and Happiness in their Settlement; that they had raised in the last Season, more Rice, Pease, Potatoes, Pomkins, Cabbage, Corn, &c. than was necessary for their Consumption, and that they did not find the Climate so Warm but that it was very tolerable for Working People.

Immates and Servants, of the latter of which there were a great Number, part of whose Passages were paid for in the next Year on Representations made to the Trustees for that Purpose.

The Lands Granted in Trust this Year to be Cultivated for the Maintenance of an Orphan House in Georgia, were Five

Hundred Acres.

The Money received this Year pursuant to Act of Parliament, was £.8,000, and in Benefactions 473l. 9s. 4d. which the Trustees applied, as also part of their former Balance to the Amount of 10,347l. 4s. 1d. of which they exhibited an Account to the Lord Chancellor, and Master of the Rolls, pursuant to their Charter, and carried the then Remainder into their succeeding Account.

From the 9th June 1739, to the 9th June 1740.

T the Time that some of the People at Savannah were so clamorous for Negroes (for Seventy five Land and Freeholders of whom Fifty two were Freeholders, did not apply for them) the Province of South-Carolina was under frequent Alarms on account of their Negroes there. They had Intelligence that a Conspiracy was formed by the Negroes in Carolina to Rise and forcibly make their Way out of the Province, to put themselves under the Protection of the Spaniards; who had proclaimed Freedom to all who should run away to them from their Owners. That this Conspiracy was discovered at Winyar the most Northern Part of that Province, from whence as the Negroes must bend their Course, it argued that the other Parts of the Province must be Privy to it, and that the Rising was to be universal. Whereupon the whole Province was upon their Guard; the number of Negroes in South-Carolina being computed to be about Forty Thousand, and the number of White Men at most not above Five Thousand. As several Negroes who were employed in Periaguas and other like Craft (which they carried off with them) had taken the Benefit of the *Spaniards* Proclamation and gone to *Augustine*, the Government of South-Carolina sent a solemn Deputation to Demand their Slaves; This Deputation consisted of Mr. Brathwaite a Member of the Council, Mr. Rutlidge one of the Assembly, and Mr. Amian Clerk of the Assembly: But the Governor of Augustine the in Time of profound Peace, peremptorily refused to deliver them up, and declared he had Orders to receive all such as should come there and protect them.

Upon this, and the Petition which was sent from the Highlanders at *Darien*, and the *Saltzburghers* at *Ebenezer*, representing the Danger and Inconvenience of the Introduction of Negroes, the Trustees sent under their Seal * Answer to the Representation of some of the Inhabitants of Sarannah.

Among the Persons to whom Grants of Land were made in order to their settling at their own Expence in the Colony, some never went over; others were Gentleman of Carolina who neglected to take up their Lands, or even desire to have them laid out; and others who quitted their Plantations, and went to reside at Savannah as Shop-keepers. One Man in particular an Apothecary Surgeon, from the beginning neglected his Grant and followed his Practice in the Town; another quitted his Plantation and betook himself to Selling of Rum: To these Two almost all the Town of Savannah were Indebted for Physick or Rum, and they first raised the Clamour that Lands might be alienable, and Negroes admitted. which would have made them Possessors of the chief Part of the To these some others who had gone at their own Expence. and had employed their Covenanted Servants on their Plantations joined themselves, taking their Servants from their Labour and letting them out to Hire in the Town for the sake of an immediate Profit, on which they lived in an idle and riotous manner; and even at the Time when their Servants were taken off from their proper Labour in their Plantations, they fomented the Clamour for Negroes in order to carry them on: The Spirit of Idleness which was very early introduced in the Town, many of the People were too ready to follow; constant Clubs have been held, and Horse Races kept up by them to amuse and divert the People from their Labour: And Delinquents (who have insulted the Laws even in the Courts of Justice and declared they would do their utmost to destroy the Colony) have when committed to Prison been abetted and supported by them. By these the beforementioned Representation was formed, and many of the People by their own Inclination to Idleness, by the Power the others had over them as Creditors, and by Hopes being given them that if they stuck together the Trustees must grant them Negroes, or see the Colony abandoned, were thus drawn in to Sign the same, in which they in a manner Demanded the Permission of Negroes and an Alteration of their Tenures.

The Trustees to make all the People as Easy and Contented as they could, published an Advertisement in the London Gazette the 8th September 1739, and other Papers, which was continued for several Days, and ordered it to be Published in the South-Carolina Gazette, that they had resolved to enlarge their Grants on Failure of Issue Male, and to make a Provision for the Widows of the Grantees in the following manner, viz. That the Lands already Granted should on Failure of Issue Male descend to the

^{*} Appendix, No 11.

Daughters of such Grantees, and in case there should be no Issue Male or Female, that the Grantee might Devise such Lands, and for want of such Devise that such Lands should Descend to their Heirs at Law; with a Proviso that the Possession of the Person who should enjoy such Devise should not be increased to more than Five Hundred Acres, and that the Widows of the Grantees should Hold and Enjoy the Dwelling-House, Garden, and one Moiety of the Lands their Husbands should Die seized of for and during the Term of their Lives.

The Trustees directed in the Advertisement, that those who intended to have the Benefit given them should enter their respective Claims, in order that proper Grants and Conveyances in the Law might be forthwith prepared and executed for that purpose; and that no Fee or Reward was to be taken for the entering of any such Claim directly or indirectly by any Person or Persons whatsoever.

In the Month of August 1739, the Trustees received Advice from General Oglethorpe, That he had frequent Intelligence of the Spaniards endeavouring to Bribe the Indians and particular the Creek Nation into a Rupture with the English, which made it necessary for him to go to the General Assembly of the Indian Nations at the Coweta-Town about Five Hundred Miles distant from Frederica, in order to prevent such Designs and Seditions among them, and that he had been obliged to buy Horses and Presents to carry up to this Meeting, where the Choctaws (who are upon the Frontiers between the English and French Settlements) and the Chickesaws were to send their Deputies.

This Journey of General Oglethorpe's has since appeared to be of great Service to the Publick; for on the 26 August 1739, Mr. Stephens received an Express from Col. Bull Lieutenant Governor of South-Carolina, that he had Intelligence from Licutenant Governor Clarke of New-York concerning the French Marching from Mont-Real near Quebeck with a Body of about Two Hundred Regular Troops and Five Hundred Indians, who were to be re-inforced by French and Indians in their Journey: That this Army was designed against the Indians in Friendship with his Britannick Majesty's Subjects of Carolina and Georgia who are situated near some Branches of the Mississippi River. Col. Bull added, that he should immediately dispatch an Express to the Creek-Nations with Advice to General Oglethorpe of the Contents of Lieutenant Governor Clarke's Letter, and that it was necessary that both the Provinces of Carolina and Georgia should be on their Guard, tho' if the Creek Indians should prove True the Danger would not be great; General Oglethorpe by his Treaties with the Indians in this Journey has confirmed them in the British Interest, and made a new Treaty with them whereby

their former Concession of Lands to Great-Britain was confirmed and Extended.

A parcel of Raw Silk was brought this Year from Georgia by one Mr. Samuel Augspourguer, who made an Affidavit before a Master in Chancery, that he received it from the Hands of Mr. Thomas Jones the Trustees Store-keeper at Savannah, who told him it was the Produce of Georgia, and the said Samuel Augspourguer who resided in the Southern Part of the Province said. That, when at Savannah, he saw the Italian Family there winding off Silk from the Coquos.

The Silk was showed at the Trustees Office to Mr. John Zachary an eminent Raw Silk Merchant, and Mr. Booth one of the greatest Silk Weavers in England, who declared it was as fine as any Italian Silk, and that it was worth at least Twenty Shillings a

The Lands Granted this Year to be Cultivated at the Expence of the Incorporated Society in Scotland for promoting Christian Knowledge in order to raise a Maintenance for the Scots Minister at New-Inverness in Georgia were Three Hundred Acres.

The Lands Granted this Year to be Cultivated by a Person at

his own Expence were Five Hundred Acres.

The Lands Granted in Trust in the said Eight Years in order to be Granted out in smaller Portions in *Georgia* were Forty one Thousand Six Hundred Acres; to be Cultivated for Religious Uses were Nine Hundred Acres, and to be Cultivated for the Maintenance of an Orphan House were Five Hundred Acres.

The Lands Granted in the said Eight Years to Persons who were to Cultivate them at their own Expence were Twenty seven

Thousand One Hundred and Eighty five Acres.

The Money received this Year pursuant to Act of Parliament was £.20,000 and in Benefactions 1811. 4s. 3d. 2g. whereof in South-Carolina the amount in Sterling Money 861. 6s. 11d. 2q. and in England 941. 17s. 4d. whereof the Trustees applied 16,6141. 2s. 5d. 2q. of which they exhibited an Account to the Lord Chancellor, and the Lord Chief Justice of the Court of King's Bench, pursuant to their Charter, and the Remainder of all the Money they ever received being 5917l. 7s. 7d. will be carried into their succeeding Accompt.

From the 9th June 1740, to the present Time.

The Trustees this Year took further Methods for the Satisfaction of the People in the Province, they extended the Tenures be which a Daughter of a Grantee, or any other Person, was made capable of enjoying by Devise or Inheritance, any quantity of Lands which did not increase her or his Possession to more than Two Thousand Acres.

A Licence was likewise Granted to all the present Possessors of lan in Georgia, to make Leases of any Parts of their Lots for any Term not exceeding Three Years to any Person residing in Georgia and who should reside there during the Term of such Lease.

A general Release was likewise passed by which no Advantage was to be taken against any of the present Possessors of Land in Georgia for any Forfeitunes incurred at any Time before Christmas 1740, in relation either to the Tenure or Cultivation of Lands, and the Possessors of Fifty Acres of land were not obliged to cultivate more than Five Acres thereof in Ten Years from their Grants, and those under Fifty Acres in proportion: And the Possessors of Five Hundred Acres of Land were not obliged to cultivate more than One Hundred and Twenty Acres thereof in Twenty Years from their Grants, and those of under Five Hundred Acres and above Fifty Acres in proporation in order to prevent any Forfeitures for want of Cultivating the Quantities required.

Under these Circumstances it is presumed that no Complaint can now with Reason be made against the Tenure by which the Inhabitants at this Time hold their Lands, since they have more Power than is Generally given by Marriage Settlements in which the Grantees are only Tenants for Life, incapable of Mortgaging or Aliening or making any Disposition by their Last Will, whereas the Freeholders in *Georgia* are now become Tenants in Tail-General, and may with the Licence of the Common Council of the said Trustees upon Application made to them for that purpose, Mortgage or Alien, and further without that Licence have it absolutely in their Power on Failure of Issue in Tail to dispose thereof by their Last Will.

By an Account received from the Secretary in the Province it appears, that on the 1st August 1740, about Seventy Freeholders of the Northern Part of the Province, delivered in the Town Court of Savannah their Claims of Lots under the Tenures which were Advertized the last Year in the South-Carolina and London Gazettes.

That on the 15th of the same Month, as many or more appeared in the said Town Court of the said Occasion, and that on the 27th of the same Month divers more delivered in their Claims likewise.

The Trustees are informed by their Secretary in the Province, that in pursuance of their Orders he had just finished an authentical Account of the State of the Colony with respect to the Number of Inhabitants in the several Towns and Villages, the Number of Houses and the Settlements made, the Progress which the several People had made in the Cultivation of their Lands, and their Ability or Inability to support themselves, and in case were the last appeared the Reason of it; the Proportions of the different sorts of Soil as near as could be computed, and an Account of the several Produces which by Experience or Appearance could or might be raised for trade. And the Trustees are daily in expectation of receiving from him the said Account. But by the several Accounts before received they are enabled to give, though an imperfect one, the following State of the Settlements, viz.

The Town of Savannah is about Ten Miles up the River Savannah, were are (besides Warehouses and Huts) at least One Hundred and Thirty Houses in the Town; as these for the sake of Air, and to prevent the spreading of any Fire, are Built at some Distance from each other, they make several spacious Squares and wide Streets. There is a regular Magistracy settled in the Town, which the Trustees are obliged to be at the Expence of Supporting, 'till the Colony arrives at sufficient Strength to do it. There are in the Town a Court-House, a Store-House, a Goal, a House for the Trust Servants, a Wharf, a Guard-House and some other Publick Buildings; a Churchisat present Building and a Clergyman is settled there. The Town is excellently situated for Trade, the Navigation of the River being very secure and Ships of Three Hundred Tons can lie within Six Yards of the Town and the Worm does not Eat them.

About Four Miles from Savannah, inland from the River, are the Two Villages Highgate and Hampstead, which lie at about a Mile distant from each other: The People settled there apply themselves chiefly to Gardening, and supply the Town of Savannah with quantities of Greens and Garden stuff.

By the Account of Mr. Thomas Stephens, who at his Father's request was sent over to assist him in his Business of Secretary in the Province and continued with him there some short Time, he states, that there are Twenty Plantations within Twenty Miles

round Savannah, which have each of them from Five to Thirty Acres of Land Cleared.

About Fifteen Miles from Savannah is a Village called Abercorn; about Twenty Miles further up the River is the Town of Ebenezer were the Saltzburghers are settled with Two Ministers, one of whom computed that the Number of his Congregation in June 1738 consisted of One Hundred and Forty six. Therefore as the Infants could not be reckoned in the Computation, and as Seven more have since been sent and settled with them, it is believed the Number has been increased; especially since the Town is so Healthy that by a Letter sent to the Society for Propagating Christain Knowledge by the Rev. Mr. Bolzius one of the Ministers at Ebenezer, dated the 26 June 1740, he declared, That in a Year's Time one Person only had died, which was a Child of Four Years old. The People are Industrious and Sober, they raise not only a sufficient quantity of Corn and other Produces for their own Subsistence, but they sell great quantities to those at Savannah who have not been so eareful of their own Plantations; they have great Herds of Cattle, and are in so Thriving a Condition that not one Person has abandoned his Settlement, or sent over the least Complaint about the Tenures or the Want of Negroes. On the contrary they in a Body Petitioned against the use of Negroes, and their Ministers have declared, that their Signing that Petition was a voluntary Act ; And at their desire another $\operatorname{Em-}$ barkation of their Countrymen, who are willing to go from Germany and join them, is designed to be sent with all convenient speed.

About Ten Miles from hence, and upon a River running into Savannah is a Place called Old Ebenezer were is a Cow-pen and a great number of Cattle for the use of the Publick and for

Breeding.

At a considerable distance from hence is the Town of Augusta before described, which with the great resort of Traders and Indians, is in a thriving Condition, and is and will be a great Protection to both the Provinces of Carolina and Georgia against any Designs of the French.

In the Southern Part of the Province is the Town of *New Inverness* upon the River *Alatamaha* where the Highlanders are settled.

And about Twenty Miles from hence on the Island of St. Simons near the Sea is the Town of Frederica with a regular Magistraey, as at Savannah, supported at the Expence of the Trust; strong Fortifications round the Town are almost finished, and at the South East Point of the Island are Barracks for Three Hundred and Thirty Men.

There are Settlements on the Islands of Jekyll and Cumberland which lie at a small distance from each other to the Southward of Frederica, and on the last Two Forts are Built, one of which

was described before, and the other was finished in April 1740 upon the South End of the Island. It commands the Inlet of Amelia Sound, is strongly Pallisaded with Flankers, and is Defended by Eight Pieces of Cannon.

Barracks are Built upon this Island for Two Hundred and Twenty Men with Storehouses, which were finished in October 1738.

There are Six Forts in the Province, and a Battery of Cannon erected to secure the Harbour of St. Simons, under which Ships

may safely lie.

The Indians, from the Presents which they have Annually received from the Trustees, and from the Justice and Humanity with which they have been treated, are secured in the British Interest, notwithstanding the Arts both of the French and the Spaniards to seduce them: By this Sonth-Carolina has been free from those Wars, in which (as the Preamble of his Majesty's Charter sets forth) they had frequently suffered, and so late as in the Year 1715 had been laid almost Wast with Fire and Sword, and by the Security which South-Carolina received by such a Frontier as Georgia is to it, very large Tracts of Land have been Cultivated in the Southern Part of that Province, which no Person would venture to settle on before, and a great quantity of Rice raised thereon.

As the People in Georgia sent on the Charity were supported to enable them to raise their own Provisions in the first Place on the Lands they should Clear, and to convert the Timber they should cut down in Clearing those Lands into Lumber, which they might to their great Advantage Transport to the Sugar Colonies, and further to raise Silk, Wine and Oil, for which the Climate was very proper, it was hoped from thence they would gain a comfortable Subsistence, and be of service to their Mother Country in raising such Produces, which at prevent are purchased from Foreigners with Ready Money.

Having thus stated the Plan laid down for the Trustees by his Majesty's Charter, the several steps taken by them for the Execution of that Plan, with their Yearly Progress therein, the several Obstructions from unforeseen Accidents which have checked that Progress, with the present Condition of the Colony, according to the latest and most authentick Accounts from thence, they submit the whole to the Wisdom of this Honourable House, being intirely disposed to follow any Directions that shall flow from thence. And as they have no other View but the Service of their Country, by making this Colony as useful to the Interest of Great-Britain, as by it's Situation and Climate it's capable of being, they heartily with the Trust in abler Hands that those important Services might not be defeated thro' their Inability.

By Order of the Trustces,

APPENDIX.

Number 1.

To the Trustees for Establishing the Colony of GEORGIA.

Gentlemen,

IN Writing this Answer to a Letter I had the Honour to receive from you, dated the 29th Instant, wherein you desire to know my Sentiments of an Undertaking to raise Raw Silk in your new Settlement in Georgia; of the Probability of succeeding therein; the proper steps to be taken to bring that Work to Perfection, and my Opinion of the Nature, Quality and Use of the Raw Silk produced in Carolina: It is a great Pleasure to me, that from Experiments which I made some Years ago, I can now besides my Opinion, give you some Information concerning that Silk which may be depended upon.

The Value and Usefulness of the Undertaking will appear as soon as we consider that all the Silk consumed in this Kingdom, is now of foreign Growth and Manufacture, which Costs the Nation very great Sums of Money Yearly to purchase; and that the raising our Supply thereof in his Majesty's Dominions in America would save us all that Money, afford Employment to many Thousands of his Majesty's Subjects, and greatly increase

the Trade and Navigation of Great-Britain.

It appears to me as Beneficial to the Kingdom, attended with as little Hazard or Difficulty, as much Wanted, and which may as soon be brought to Perfection in a proper Climate as any Undertaking so Considerable in itself, that I ever heard of. I therefore think that there is a very great Probability of it's succeeding, if such proper Methods are pursued, and such Assistance afforded to the poor People at their first setting out, as are necessary to Settle, Instruct and Encourage them.

The Silk produced in Carolina has as much natural Strength and Beauty as the Silk of Italy (which is commonly called fine Silk) and by the several Experiments I have tried with it, I am satisfied that it might be made to answer the same Purposes that Italian Silk now does, if it be reeled in short Skains, a fine clean and even Thread: To effect which if some experienced Persons are at first sent to Teach the People, the Work will soon be made

easy to the meanest Capacity, and the value of the Silk will be

thereby greatly increased.

As for my own Part, if at any Time you should think I can be of use to promote so good a Work, I shall be ready to execute your Commands as far as I am able; and always remain,

Gentlemen, Your most Obedient, Humble Servant, Tho. Lombe.

Old Jaory, Jan. 31, 1732.

Number 2.

Extract of a Letter from South-Carolina Gazette dated at Charles-Town, 22d. March 1732.

N Tuesday the 13th Instant I went on Board a Canoa in Company with Mr. Gco. Ducat and Mr. John Balantine, with Four Negroes, and about 10 o'Clock we set out from Mr. Lloyd's Bridge for Georgia, and passing by Port-Royal on Wednesday Night, we arrived on Friday Morning an Hour before Day at Yamacraw a Place so called by the Indians, but now Savannah in the Colony of Georgia. Sometime before we came to the Landing the Centinel challenged us, and understanding who we were, admitted us on Shore. This is a very high Bluff Forty Feet perpendicular from High Water Mark: it lies according to Capt. Gascoigne's Observation in the Latitude of 31d. 58m. which he took off Tybee an Island that lies at the Mouth of the Savannah River. It is distant from Charlestown S. W. according to Course and Windings of the Rivers and Creeks about 140 Miles, but by a Direct Course 77, allowing Suillivant's Island to be in the Latitude of 32d. 47m. from Augustine N. E. and by E. about 140 Miles, and by the Course of the Rivers is distant from Fort Moore 300 Miles, but upon a direct Line but 115 Miles N. W. and by W. This Bluff is distant 10 Miles from the Mouth of the Rivers on the South side, and Purrysburgh is 24 Miles above it on the North, and is so situated that you have a beautiful Prospect both up and down the River. It is very sandy and barren and consequently a wholsome Place for a Town or There are on it 130 odd Souls, and from the Time they Embarked from London to the Time I left the Place, there Died but two sucking Children and them at Sea. When they arrived there was standing on it a great quantity of the best sort of Pine, most of which is already cut down on the spot were the Town is laid out to be Built. The Land is barren about a Mile back, when you come into very rich Ground; and on both sides within a quarter of a Mile of the Town is choice good Planting Land.

Col. Bull told me that he had been Seven Miles back and found

it extraordinary good.

Mr. Oglethorpe is indefatigable, takes a great deal of Pains. his Fare is but indifferent having little else at present but Salt Provisions. He is extreamly well beloved by all his People, the general Title they give him is Father. If any of them is Sick he immediately Visits them and takes a great deal of Care of them. If any Difference arises he is the Person that decides it. happened while I was there and in my Presence, and all the Parties went away to outward appearance Satisfied and Contented with his Determination. He keeps a strict Discipline, I never saw one of his People Drunk nor heard one of them Swear, all the Time I was there: He does not allow them Rum but in lieu gives them English Beer: It is surprizing to see how Chearful the Men go to Work considering they have not been bred to it; There are no Idlers there even the Boys and Girls do their Parts. There are Four Houses already up but none finished, and he hopes when he has got more Sawvers, which I suppose he will have in a short Time, to finish Two Houses a Week. He has ploughed up some Land, part of which he has sowed with Wheat, which is come up and looks promising. He has Two or Three Gardens which he has sowed with divers sorts of Seeds, and planted Thyme and other sort of Pot-herbs, Sage, Lecks, Skellions, Celeri, Liquorice, &c. and several sorts of Trees. Pallisading the Town round including some part of the Common, which I do suppose may be finished in about a Fortnight's Time. In short he has done a vast deal of Work for the Time, and I think his Name justly deserves to be immortaliz'd.

Mr. Oglethorpe has with him Sir Walter Rawleigh's written Journal, and by the Latitude of the Place, the Marks and Traditions of the Indians, it is the very first Place where he first went on shore, and talked with the Indians, and was the first Englishman they ever saw; and about half a Mile from Savannah is a high Mount of Earth under which lies their Chief King: And the Indians informed Mr. Oglethorpe that their King desired before he died, that he might be Buried on the Spot were he talked with

that great good Man.

The River Water is very good, and Mr. Oglethorpe has proved it several ways, and thinks it as good as the River of Thames. On Monday the 19th we took our Leave of Mr. Oglethorpe at Nine o'Clock in the Morning, and Embark'd for Charlestown; and when we set off he was pleased to Honour us with a Volley of Small Arms and the Discharge of Five Cannon: And coming down the Rivers we found the Water perfectly Fresh Six Miles below the Town, and saw Six or Seven large Sturgeon leap, with which Fish that River abounds, as also with Trout, Perch, Cat

and Rock Fish, &c. and in the Winter Season there is variety of Wild Fowl, especially Turkeys, some of them weighing Thirty Pounds, and abundance of Deer.

And that for the first Twelve Months from their Landing in the said Province of *Georgia*, they will Work and Labour in Clearing their Lands, making Habitations, and necessary Defences, and in all other Works for the common Good and publick Weal of the said Colony, at such Times, in such Manner, and according to

such Plan and Directions as shall be given.

If any part of the said Five Hundred Acres of Land shall not be Cultivated, Planted, Cleared and Fenced round about with Worm-Fence or Pales Six Feet high, within Eighteen Years from the Grant, all and every such part shall Revert to the Trust, and the Grant as to such Part be void.

And the Common Council of the Trust at the Expirations of the Terms such Men Servants shall be severally bound for, (being none less than Four Years) when requested by the Grantee, will Grant to each of such Men Servants Twenty Acres of land in Tail Male, under such Rents, Conditions, Limitations and Agreements, as shall have been then last Granted to any Others Men Servants in like Circumstance.

When the Land Reverts to the Trust on the Determination of the Estate in Tail Male, it is to be Granted again to such Person as the Common Council of the Trust shall think most for the Advantage of the Colony, and the Trust will have a special Regard to the Daughters of such who have made improvements on their Lots, not already provided for by having Married or Marrying Persons in Possession or intitled to Lands in the Province of Georgia in Possession or Remainder.

vince, and Trade with the Indians unless Licensed.

Number 5.

To the KING'S MOST EXCELLENT MAJESTY.

The Humble Memorial and Representation of the State and Condition of Your Majesty's Province of South-Carolina.

from the General Assembly of the said Province.

YOUR Majesty's most Dutiful Subjects of this Province, having often felt with Hearts full of Gratitude, the many Signal Instances of your most Sacred Majesty's peculiar Favour and Protection, to those Distant Parts of your Dominions, and especially those late Proofs of your Majesty's most Gracious and Benign Care, so wisely calculated for the Preservation of this your Majesty's Frontier Province on the Continent of America, by your Royal Charter to the Trustees for Establishing the Colony of Georgia, and your Great Goodness so Timely applied, for the promoting the Settlement of the Swiss at Purrysburgh ; Encouraged by such views of your Majesty's Wise and Paternal Care, extended to your Remotest Subjects, and Excited by the Duty we owe to your most Sacred Majesty, to be always Watchful for the Support and Security of your Majesty's Interest, especially at this very critical Conjuncture, when the Flame of a War breaking out in Europe, may very speedily be lighted here in this your Majesty's Frontier Province. which, in Situation, is known to be of the utmost Importance to the General Trade and Traffick in America: We therefore your Majesty's most faithful Governor, Council and Commons, convened in your Majesty's Province of South-Carolina, crave Leave with great Humility to Represent to your Majesty the present State and Condition of this your Province, and how greatly it stands in need of your Majesty's Gracious and Timely Succour in case of a War, to Assist our Defence against the French and Spaniards, or any other Enemies to your Majesty's Dominions, as well as against the many Nations of Savages which so nearly Threaten the Safety of your Majesty's Subjects.

The Province of South-Carolina, and the new Colony of Georgia are the Southern Frontiers of all your Majesty's Dominions on the Continent of America, to the South and South-West of which is Situated the strong Castle of St. Augustine, Garrison'd by Four Hundred Spaniards, who have several Nations of Indians under their Subjection, besides several other small Settlements and Garrisons, some of which are not Eighty Miles Distant from the

Colony of Georgia. To the South-West and West of us the b'ench have creeted a considerable Town near Fort Thoulouse the Marille-River, and several other Forts and Garrisons, some a above Three Hundred Miles distant from our Settlements: at New-Orleans on the Mississippi River, since her late Josh Queen Anne's War they have exceedingly increased btrength and Traffick, and have now many Forts and Garas on both sides of that great River for several Hundred Miles in the same; and since his most Christian Majesty has taken out of the Mississippi Company, the Government of that Country into his own Hands, the French Natives in Canada, come daily down in Shoals to settle all along that River, where many Regular Forces have of late been sent over by the King to Strengthen the Garrisons in those Places, and according to our best and latest Advices, they have Five Hundred Men in Pay, constantly employed as Wood-Rangers, to keep their Neighbouring Indians in Subjection, and to prevent the distant ones from Disturbing the Settlements; which Management of the French has so well succeeded, that we are now very well assured they have wholly now in their Possession and under their Influence, the several numerous Nations of *Indians* that are Situate near the *Mississippi* River, one of which called the Choctaws by estimation consits of about Five Thousand Fighting Men, and who were always deemed a very Warlike Nation, lies on this side the River not above Four Hundred Miles distant from our Out-settlements, among whom, as well as several other Nations of Indians, many French Europeans have been sent to settle, whom the Priests and Missionaries among them encourage to take Indian Wives, and use divers other alluring Methods to Attach the Indians the better to the French Alliance, by which Means the French are become thoroughly acquainted with the Indian Way, Warring and Living in the Woods, and have now a great Number of White Men among them, able to perform a long March with an Army of Indians upon any Expedition.

We further beg leave to inform your Majesty, that if the Measures of France should provoke your Majesty to a State of Hostility against it in Europe, we have great reason to expect an Invasion will be here made upon your Majesty's Subjects by the French and Indians from the Mississippi Settlements: They have already paved a Way for a Design of that Nature, by Erecting a Fort called the Albama Fort, alias Fort Lewis, in the middle of the upper Creek Indians, upon a Navigable River leading to Moville, which they have kept well Garrisoned and Mounted with Fourteen Pieces of Cannon, and have lately been prevented from erecting a Second nearer to us on that Quarter. The Creeks are a Nation very Bold, Active and Daring, consisting of about Thirteen Hundred Fighting Men (and not above One Hundred

and Fifty Miles distant from the *Choctaws*) whom, though we heretofore have Traded with, claimed and held in our Alliance, yet the *French* on Account of that Fort and a superiour ability to make them Liberal Presents, have been for some time striving to draw them over to their Interest, and have Succeeded with some of the Towns of the *Creeks*; which, if they can be Secured in your Majesty's Interest, are the only Nation which your Majesty's Subjects here can depend upon as the best Barrier against any Attempts either of the *French* or their Confedrate *Indians*.

We most Humbly pray Leave farther to inform your Majesty, that the French at Moville perceiving that they could not gain the Indians to their Interest, without buying their Deer-Skins (which is the only Commodity the *Inclians* have to purchase Necessaries with) and the French not being able to dispose of those Skins by reason of their having no Vend for them in Old France, they have found Means to incourage Vessels from hence. New-York, and other Places (which are not Prohibited by the Acts of Trade) to Truck those Skins with them for Indian Trading Goods, especially the British Woollen Manufactures, which the French dispose of to the Crecks and Choctaws, and other Indians, by which Means the *Indians* are much more Alienated from our Interest, and on every Occasion object to us that the French can supply them with Strouds and Blankets as well as the English, which would have the contrary Effect if they were wholly supplied with those Commodities by your Majesty's Subjects Trading with If a Stop were therefore put to that pernicious Trade with the French, the Creek Indians chief Dependance would be on this Government, and that of Georgia, to supply them with Goods; by which Means great Part of the Choctaws, living next the Creeks, would see the Advantage the Creek Indians enjoyed by having British Woollen Manufactures wholly from your Majesty's Subjects, and thereby be invited in a short Time to Enter into a Treaty of Commerce with us, which they have lately made some Offers for, and which, if Effected, will soon lessen the Interest of the French with those Indians, and by Degrees Attach them to that of your Majesty.

The only Expedient we can propose to Recover and Confirm that Nation to your Majesty's Interest, is by speedily making them Presents to withdraw them from the *French* Alliance, and by Building some Forts among them your Majesty may be put in such a Situation, that on the first Notice of Hostilities with the *French*, your Majesty may be able at once to reduce the *Albama* Fort, and we may then stand against the *French* and their *Indians*, which, if not timely prepared for before a War breaks out, we have too much Reason to Fear we may be soon over-run by the united strength of the *French*, the *Creeks* and *Choctaws*, with many other Nations of their *Indians*. Allies: For, should the

Creeks become wholly Enemies, who are well acquainted with all our Settlements, we probably should also be soon Deserted by the Cherokees, and a few others, small Tribes of Indians, who, for the sake of our Booty, would readily join to make us a Prey to the French and Savages. Ever since the late Indian War the Offences given us then by the *Creeks* have made that Nation very Jealous of your Majesty's Subjects of this Province. We have therefore concerted Measures with the Honourable James Oglethorpe, Esq; who, being at the Head of a new Colony, will (we hope) be Successful for your Majesty's Interest amougst that People. He has already by Presents Attached the Lower Creeks to your Majesty, and has laudably undertaken to endeavour the fixing a Garrison among the Upper Creeks, the Expence of which is already in part provided for in this Session of the General Assembly of this Province: We hope therefore to prevent the French from Encroaching faither on your Majesty's Territories. until your Majesty is graciously pleased further to Strengthen and Secure the same.

We find the *Cherokee* Nation has lately become very Insolent to your Majesty's Subjects Trading among them, notwithstanding the many Favours the Chiefs of that Nation received from your Majesty in Great-Britain, besides a considerable Expense which your Majesty's Subjects of this Province have been at in making them Presents, which inclines us to believe that the French by their Indians have been tampering with them. We therefore beg leave to inform your Majesty, that the Building and Mounting some Forts likewise among the Cherokecs, and making them Presents will be highly necessary to keep them steady in their Duty to your Majesty, lest the French may prevail in Seducing that Nation, which they may the more readily be inclined to from the Prospect of getting considerable Plunder in Slaves, Cattle, &c. Commodities which they very well know they have among us, several other Forts will be indispensably necessary, to be a cover to your Majesty's Subjects settled backwards in this Province, as also to those of the Colony of Georgia, both which in Length are very extensive; for tho' the Trustees for Establishing the Colony of Georgia, by a particular Scheme of good Management Painfully Conducted by the Gentleman engaged here in that Charitable Enterprize, has put that small part of the Colony. which he has not yet been able to establish, in a Tenable Condition against the Spaniards of Florida which lie to the Southward; yet the back Exposition of those Colonies to the vast Number of French and Indians which border on the Westward, must, in case of a War, cry greatly aloud for your Majesty's Gracious and Timely The Expence of our Safety on such an Occasion, we must, with all Humility, acquaint your Majesty, either for Men or Money, can never be Effected by your Majesty's Subjects of this

Province, who, in conjunction with Georgia, do not in the whole amount to more than Three Thousand Five Hundred Men, which Compose the Militia and wholly consist of Planters, Tradesmen and other Men of Business.

Besides the many Dangers which by Land we are exposed to from so many Enemies that lie on the back of us; we further beg leave to represent to your Majesty, the Defenceless Condition of our Ports and Harbours, were any Enemies of your Majesty's Dominions may very easily by Sea Invade us, there being no Fortifications capable of making much Resistence. Those in *Charles*-Town Harbour are now in a very ruinous Condition, occasioned by the late violent Storms and Hurricanes which already cost this Country a great deal of Money, and now requires several Thousands of Pounds to Repair the old and Build new ones, to Mount the Ordnance which your Majesty was graciously Pleased to send us, which, with great Concern, we must inform your Majesty we have not yet been able to accomplish, being lately obliged for the Defence and Support of this your Majesty's Province and Government, to Raise, by a Tax on the Inhabitants, a Supply of above Forty Thousand Pounds Paper Currency per Annum, which is a considerable deal more than a Third Part of all the Currency among us; a Charge which your Majesty's Subjects of this Province are but barely able to Sustain. Since your Majesty's Royal Instruction to your Majesty's Governour here, an intire Stop has been put to the Duties which before accrued from European Goods Imported; and if a War should happen, or any thing extraordinary, to be farther Expensive here, we should be under the utmost Difficulties to provide additionally for the same, lest an Increase of Taxes with an Apprehension of Danger, should drive away many of our present Inhabitants, as well as Discourage others from coming here to Settle for the Defence and Improvement of your Majesty's Province, there being several daily moving with their Families and Effects to North-Carolina, were there are no such Fears and Burdens.

We must therefore beg leave to inform your Majesty, that amidst our other perilous Circumstances, we are Subject to many Intestine Dangers from the great Number of Negroes that are now among us, who amount at least to Twenty Two Thousand Persons, and are Three to One of all your Majesty's White Subjects in this Province. Insurrections against us have been often Attempted, and would at any Time prove very Fatal if the French should instigate them, by artfully giving them an Expectation of Freedom. In such a Situation we most humbly Crave leave to acquaint your Majesty, that even the present ordinary Expences necessary for the Care and Support of this your Majesty's Province and Government, cannot be provided for by your Majesty's Subjects of this Province, without your Majesty's gracious Pleasure to Con-

time those Laws for Establishing the Negroes and other Duties for Seven Years, and for appropriating the same, which now lie before your Majesty for your Royal Assent and Approbation: and the further Expences that will be requisite for the Erecting some Forts and Establishing Garrisons in the several necessary Places, so as to form a Barrier for the Security of this your Majesty's Province, we most humbly Sulmit to your Majesty.

Your Majesty's Subjects of this Province, with fullnes of Zeal, Duty and Affection to your most Gracious and Sacred Majesty, are so highly sensible of the great Importance of this Province to the French, that we must conceive it more than probable, if a War should happen, they will use all Endeavours to bring this Country under their Subjection; they would be thereby Enabled to Support their Sugar Islands with all sorts of Provisions and Lumber by an easy Navigation, which to our great Advantage is not so Practicable from the present French Colonies, besides the facility of gaining then to their Interest most of the Indian Trade on the Northern Continent; they might then easily unite the Canadees and Choctaws with the many other Nations of Indians which are now in their Interest. And the several Ports and Harbours of Carolina and Georgia which now enable your Majesty to be absolute Master of the Passage thro' the Gulph of Florida, and to impede, at your Pleasure, the Transportation home of the Spanish Treasure, would then prove so many Convenient Harbours for your Majesty's Enemies, by their Privateers or Ships of War to annoy a great Part of the British Trade to America, as well as that which is carried on through the Gulph from Jamaica; besides the Loss which Great-Britain must feel in so considerable a Part of it's Navigation, as well as the Exports of Masts, Pitch, Tar and Turpentine, which, without any Dependance on the Nothern Parts of Europe, are from hence plentifully supplied for the Use of the British Shipping.

This is the present State and Condition of your Majesty's Province of South-Carolina, utterly incapable of finding Funds sufficient for the Defence of this Wide Frontier, and so destitute of White Men, that even Money itself cannot here raise a sufficient

Body of them.

With all Humility we therefore beg Leave to lay ourselves at the Feet of your Majesty, humbly imploring your Majesty's most gracious Care in the Extremities we should be reduced to on the breaking out of a War; and that your Majesty would be graciously pleased to extend your Protection to us, as your Majesty in your great Wisdom, shall think proper.

In the Council-Chamber of South-Carolina, 9th April, 1734.

Robert Johnson,

Tho. Broughton, President Paul Jenys, Speaker.

Number 6.

THomas Pearce, aged Forty Years and upwards, of the Dover Man of War, Mariner, having been at Georgia in America. on board the Peter and James, Captain George Dymond, in the Year One Thousand Seven hundred and Thirty-five; and, from that Ship, on board the Hawk Sloop, Stationed at Georgia until the Beginning of the Year One Thousand Seven Hundred and Thirty-nine; and having Sounded every Inlet, from the Sea all along the Coast of Georgia, from Jekyll Sound to Tybee Sound, maketh Oath and saith, That the said Coast Four Leagues from the Land, is all even Ground, not less than Seven or Eight Fathon Water, and any Ship keeping in that Depth of Water may Steer along the same with the greatest Safety, and Anchor if they have occasion: That on the Bar at Jekyll there is at least Thirteen Feet and a half, at low Water, and at High Spring Tides Twentyfour Feet; and on the Bar at Tybee there is at least Sixteen Feet and a half at low Water, and at High Water Spring Tides Twenty-five Feet and a half; and the Difference between the Spring and Niep Tides is generally between Three and Four Feet.

And this Deponent farther saith, That he is well assured, and would undertake, by Sounding with a Boat, even at Niep Tides, to carry in Forty-Gun Ships over either of the said Bars; and saith, That he hath seen in the Sound at St. Simon's, from Jekyll Bar, Ten Sail of Ships at one Time, and that Ten or Twelve Forty Gun Ships may safely ride there; but behind Jekyll Island there is Water and Room enough for Shipping for Ten Miles up: and that the Sound at Tybee is large enough to hold with Safety Seven or Eight Forty Gun Ships.

And this Deponent farther saith, That Ships in Jekyll Sound may in Twenty-four Hours, from the Bar, run out into the Gulf-Stream of Florida, through which Stream the Spanish Galleons (when not passing the Winward Passage) always come.

Number 7.

To the KING'S MOST EXCELLENT MAJESTY.

The humble Memorial of the Trustees for Establishing the Colony of Georgia in America.

Humbly Sheweth,

That they being intrusted by your Majesty with the Care of the Colony of *Georgia*, which was formerly Part of your Majesty's Province of *South-Carolina*, and your Majesty's Colony of *Georgia* being very much exposed to the Power of

the Spaniards, and become an object of their Envy, by having valuable Ports upon the homeward Passage from the Spanish West-Indies, and the Spaniards having increased their Forces in the Neighbourhood thereof; The Trustees, in consequence of the great Trust reposed in them by your Majesty, find themselves obliged, humbly to lay before your Majesty, their Inability sufficiently to Protect your Majesty's Subjects settled in Georgia, under the Encouragement of your Majesty's Charter, against this late Increase of Forces, and therefore become humble Suppliants to your Majesty, on the Behalf of your Subjects settled in the Province of Georgia, that your Majesty would be pleased to take their Preservation into your Royal Consideration, that, by a necessary Supply of Forces, the Province may be Protected against the great Dangers that seem immediately to Threaten it.

All which is most humbly submitted to your Majesty's great

Wisdom.

Signed by Order of the Trustees, this 10th Day of August, 1737.

Benj. Martyn, Secretary.

Number 8.

To the Honourable the Trustees for Establishing the Colony of Georgia in America.

May it please your Honours,

WE, whose Names are under-written, being all Settlers, Free-holders, and Inhabitants of the Province of Georgia, and being sensible of the great Pains and Care exerted by you, in endeavouring to settle this Colony, since it has been under your Protection and Management, do unanimously join to lay before you, with the utmost Regret, the following Particulars.

But, in the first Place, we must beg Leave to observe, That it has afforded us a great deal of Concern and Uneasiness, that former Representations, made to you, of the same Nature, have not been thought worthy of a due Consideration, nor even of an Answer. We have most of us settled in this Colony, in pursuance of a Description and Recommendation of it, by you, in Britain; and from the Experience of residing here several Years, do find, that it is impossible the Measures hitherto laid down for making it a Colony can succeed. None of all those who have planted their Lands, have been able to raise sufficient Produce to maintain their Families, in Bread-kind only, even though as much Application and Industry have been exerted to bring it about, as could be done by Men engaged in an Affair, in which they believe

the Welfare of themselves and Posterity so much depended, and which they imagine must require more than ordinary Pains to make it succeed; so that by the accumulated Expences, every Year, of Provisions, Cloathing, Medicines, &c. for themselves, Families, and Servants, several of them have expended all their Money, nay, even run considerably in Debt, and so been obliged to leave off Planting, and making further Improvements; and those who continue are daily exhausting more and more of their Money, and some daily increasing their Debts, without a Possibility of being reimburs'd, according to the present Constitution. This being now the General State of the Colony, it must be obvious, that People cannot subsist by their Land according to their present Establishment, and this being a Truth resulting from Trial, Practice, and Experience, cannot be contradicted by any Theorical Scheme or Reasoning. The Land then, according to the present Constitution, not being able to maintain the Settlers here, they must unavoidably have recourse to, and depend upon, Trade; but to our woeful Experience likewise, the same Causes that prevent the first, obstruct the latter; for though the Situation of this Place is exceeding well adapted for Trade, and, if it were encouraged, might be much more improved by the Inhabitants, yet the Difficulties and Restrictions which we hitherto have and at present do labour under, debar us of that Advantage. Timber is the only Thing we have here which we can Export, and notwithstanding we are obliged to fall it in planting our Land, yet we cannot manufacture it fit for a Foreign Market, but at double the Expence of other Colonies; as for Instance the River of May, which is but Twenty Miles from us, with the Allowance of Negroes, load Vessels with that Commodity at one half of the Price that we can do; and what should induce Persons to bring Ships here, when they can be loaded with one Half of the Expence so near us? Therefore the Timber on the Land is only a continual Charge to the Possessors of it, though of very great Service in all the Northern Colonies, where Negroes are allowed. and consequently Labour cheap. We do not in the least doubt. but that in Time Silk and Wine may be produced here, particularly the former; but since the Cultivation of Lands with White Servants only cannot raise Provision for our Families, as before mentioned, therefore it is likewise impossible to carry on these Manufactures according to the present Constitution. It is very well known that Carolina can raise every thing that this Colony can, and they having their Labour so much cheaper, will always ruin our Market, unless we are in some measure on a Footing with them; and as in both, the Land is worn out in Four or Five Years, and then fit for nothing but Pasture, we must be always at a great deal more Expence than they in clearing new Land for

The Importation of Necessaries for Life comes to us Planting. at the most extravagant Rate, Merchants in general, especially of England, not being willing to supply the Settlers with Goods upon Commission, because no Person here can make them any Security of their Lands and Improvements, as is very often practised in other Places, to promote Trade, when some of the Employer's Money is laid out in necessary Buildings and Improvements, fitted for the Trade intended, without which it cannot be carried on. The Benefit of the Importation, therefore, is to all transient Persons who do not lay out any Money amongst us, but on the contrary carry every Penny out of the Place: And the chief Reason for their enhancing the Price, is, because they cannot get any Goods here, either on Freight or Purchase, for another Market. If the Advantage accruing from Importation centered in the Inhabitants, the Profit thereof would naturally circulate amongst us, and be laid out in Improvements in the Colony. Your Honors, we imagine, are not insensible of the Numbers that have left this Province, not being able to support themselves any longer, and those still remaining, who have Money of their own, and Credit with their Friends, have laid out most of the former in Improvements, and lost the latter for doing it on such precarious Titles; and upon account of the present Establishment, not above Two or Three Persons, except those brought on Charity, and Servants sent by you, have come here for the Space of Two Years past, either to settle Land or encourage Trade, neither do we hear of any such likely to come, until we are on better Terms.

It is true, his Majesty has been graciously pleased to Grant a Regiment for the Defence of this Province, and the neighbouring Colony, which indeed will very much Assist us in Defending ourselves against all Enemies, but otherwise does not in the least contribute to our Support; for all that part of their Pay which is expended here, is laid out with Transient People, and our Neighbours of Carolina, who are capable to supply them with Provisions and other Necessaries at a moderate Price, which we, as before observed, are not at all capable to do, upon the present Establishment: This being our present Condition it is obvious what the Consequences must be.

But we, for our parts, having intirely relied on, and confided in, your good Intentions, believing you would Redress our Grievances that should appear, and now, by our long Experience from Industry and continual Application to Improvement of Land here, do find it impossible to pursue it, or subsist ourselves any longer, according to the present nature of the Constitution: And likewise believing you will agree to those Measures which are found by Experience, capable to make this Colony succeed, and to promote

which we have consumed our Money, Time and Labour; we do, from a sincere and true Regard to it's Welfare, and in Duty both to you and ourselves, beg leave to lay before your immediate Consideration, the Two following chief Causes of these our present Mistortunes, and this deplerable State of the Colony; and which, we are certain, if Granted, would be an infallible Remedy for both.

1. The want of a Free Title or Fee Simple to our Lands, which, if Granted, would occasion great Numbers of new Settlers to come among us, and likewise encourage those who remain here, chearfully to proceed in making further Improvements, as well to retrieve their sunk Fortunes, as to make Provision for their Pos-

terity.

2. The want and use of Negroes with proper Limitations, which, if Granted, would both induce great Numbers of White People to come here, and also render us Capable to subsist ourselves by raising Provisions upon our Lands, until we could make some Produce of it for Export, and in some measure to balance our Importation. We are very sensible of the Inconveniences and Mischiefs that have already, and do daily arise from an unlimited use of Negroes; but we are as sensible that these might be prevented by a due Limitation, such as, so many to each White Man, or so many to such a Quantity of Land, or in any other Manner which your Honours shall think most proper. By Granting us, Gentlemen, these Two particulars, and such other Privileges as his Majesty's most dutiful Subjects in America enjoy, you will not only prevent our impending Ruin, but we are fully satisfied, also, will soon make this the most flourishing Colony possessed by his Majesty in America, and your Memories will be perpetuated to all future Ages, our latest Posterity sounding your Praises as their first Founders, Patrons and Guardians: But if, by Denving us those Privileges, we ourselves and Families are not only Ruined, but even our Posterities likewise, you will always be mentioned as the Cause and Authors of all their Misfortunes and Calamities; which we hope will never happen.

> We are, with all due Respect, Your Honours most Dutiful, and Obedient Servants
